Subject: RE: Plainwell Impoundment Draft letter to GP

Ramon,

In "d) RA 7, RA 8, and RA 9b" can we add similar text from "a) RA 2A" that simple states "exposed residuals are present on the banks in some areas"

Paul

Subject: Plainwell Impoundment Draft letter to GP

Hello Paul, Per your request, we are sending a draft to you. Please send me your thoughts by Wednesday this week close of business.

The letter documents the findings from our river inspection on June 11 (recommends sites for remedial); Approves the GP final Bank monitoring report (addendums), and recognizes MDNR's responsibility for post-removal site control.

Please give me your comments and let me know if we need to break the letter up into two or more, based on the material provided.

RSVP,
Ramon
